Objectives for GRP Testing

- Deploy DV-01 as shown in GRP to close off Lagoon Pond from spill originating in Vineyard Haven Harbor.
 - Evaluate strategy as written in GRP and identify any changes or modifications necessary to achieve goal of preventing migration of oil into Lagoon Pond.
- Deploy DV-01 alt as shown in GRP to prevent oil spilled in Lagoon Pond from migrating into Vineyard Haven Harbor.
 - Evaluate strategy as written in GRP and identify any changes or modifications necessary to achieve goal of preventing migration of oil into Lagoon Pond.
- Document all activities.
- Conduct post-deployment "hot wash" to identify lessons learned.
- Identify any training or planning gaps brought out by the boom deployment.
- Evaluate staging area and general logistics for deploying boom at this location.
